SCOPE OF THE JOURNAL

Mechanical Engineering: An International Journal is a peer-reviewed, open access journal that addresses the impacts and challenges of Mechanical Engineering. The journal documents practical and theoretical results which make a fundamental contribution for the development of Mechanical Engineering.

This journal aims to bring together researchers and practitioners in all Mechanical Engineering aspects, including (but not limited to):

Topics of interest

- Advances of Aero Space Technology
- Artificial Intelligence and Expert Systems
- CAD / CAM, Automation & Robotics
- Design Tools, Cutting Tool Material and Coatings
- Energy Conservation, Renewable Energy Techniques
- Fluid Dynamics, Bio-fuels, Fuel Cells
- Heat and Mass transfer
- Logistics and Supply Chain Management
- Machinability of Materials, Composite Materials
- Manufacturing Systems
- Mechanical Sciences
- Mechatronics
- Networking and Distribution
- Non-Traditional Machining processes
- Operations Management
- Quality Assurance and Engineering
- Reliability and Maintenance Engineering
- Thermodynamics
- Transportation Systems
- Tribology

Paper Submission & Manuscript preparation Guide

Authors are invited to submit papers for this journal through E-mail: mejjournal@airccse.org. Submissions must be original and should not have been published previously or be under consideration for publication while being evaluated for this Journal. For paper format download the template in this page

Review Process

Submissions are accepted for review with the understanding that the same work has been neither submitted to, nor published in, another publication. Simultaneous submission to other publications will result in immediate rejection of the paper. Papers are not within the journal scope will be rejected immediately after the pre review process.

All manuscripts will be subject to a well established, fair, unbiased peer review and refereeing procedure, and are considered on the basis of their significance, novelty and usefulness to the Journals readership. The reviewing structure will always ensure the anonymity of the referees & it will be reviewed by 3 experts in the field. The review output will be one of the following decisions:

1. Accept
2. Accept with minor changes
3. Weak accept with major changes
4. Reject

The review process may take approximately two ~three months to be completed. The Editor reserves the right to reject a paper if it does not meet the aims and scope of the journal, it is not revised well.

Publication charges: 120 USD (Maximum 20 pages)
